How To
Service Documents from APPI
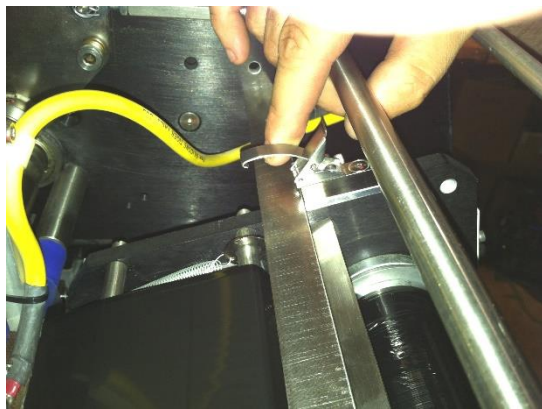

Document: #HT000012

Document Title: Determine DPI of Zebra XiIII
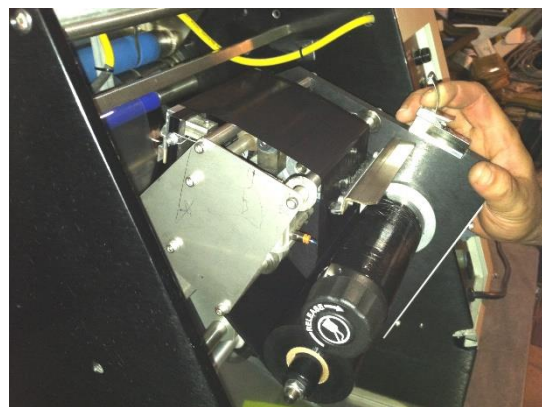

**Product(s): Any TiZ Printer**

Procedure:

To determine the DPI (Dots Per Inch) capability of Zebra **XiIII** printers:

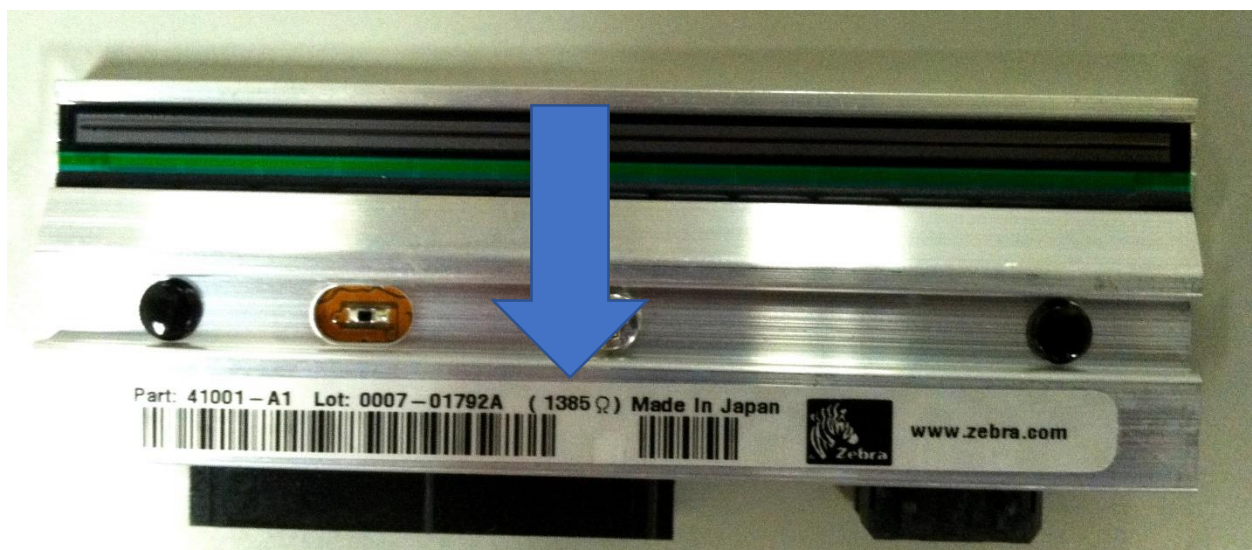

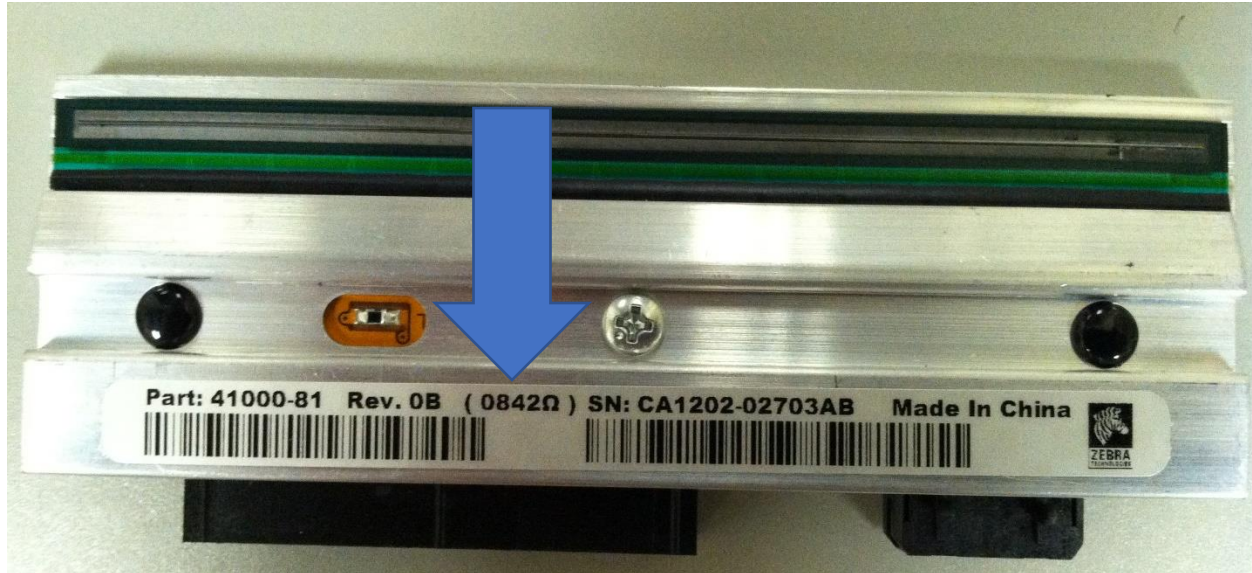

Unlatch the Print Head

Tilt Print Head Back

Move Ribbon to the side, and examine the sticker.

On the sticker, there is a Ω symbol, if the number is 1000 or less, the Print Head is 200 dpi.

Higher than 1000 = 300dpi
