## How To Service Documents from APPI

Change the print speed accordingly: 10 in/sec for the best performance.

Adjust the label height and width accordingly.

abel Setup Optio	ns   Password   Label Description		
Label Stock: Width Height Left Margin Vertical Gap Labels Across Print Speed Temperature	< Non Inventory > 4.000 2.500 0.000 0.120 1 • Horizontal Gap 6 in. per sec. 3 in. per sec. 10 in. per sec.	0.000	preview

Set Temperature to "3".

	ns Password Label Description		
Label Stock:	< Non Inventory >		
Width	4.000
