

Choose the Coverage That Fits Your Business Best

Keep your packaging systems running at peak performance with our flexible service protection plans. Whether you prefer in-house assistance or on-site expertise, we've got you covered.

Option 1 – Extended Warranty	• Extends your original factory warranty • Covers replacement parts and repair labor • Protects your investment against unexpected downtime Ideal for customers who prefer factory-backed coverage and minimal risk.
Option 2 – Extended Warranty + In-House Field Service	• Includes all benefits of the Extended Warranty • Priority access to our Factory Field Service Team • Labor included for service work completed at our facility Best for customers who can ship their equipment in for quick factory repair and calibration.
Option 3 – Extended Warranty + On-Site Service	• All benefits of Option 1 • On-site technical service at your facility • Travel and labor covered under the program • Faster response times and reduced production interruptions Perfect for high-volume operations that need on-site reliability and convenience.
Option 4 – Ribbon Servicing Program	• Regular maintenance and replacement of thermal printer ribbons • Includes cleaning, calibration, and usage tracking • Available as a monthly or annual subscription Great for ensuring consistent print quality and reducing consumable downtime.

Why Choose APP Service Programs?

- Factory-trained technicians
- Genuine OEM parts
- Scheduled maintenance options
