Document Title: How To Replace Logic Board

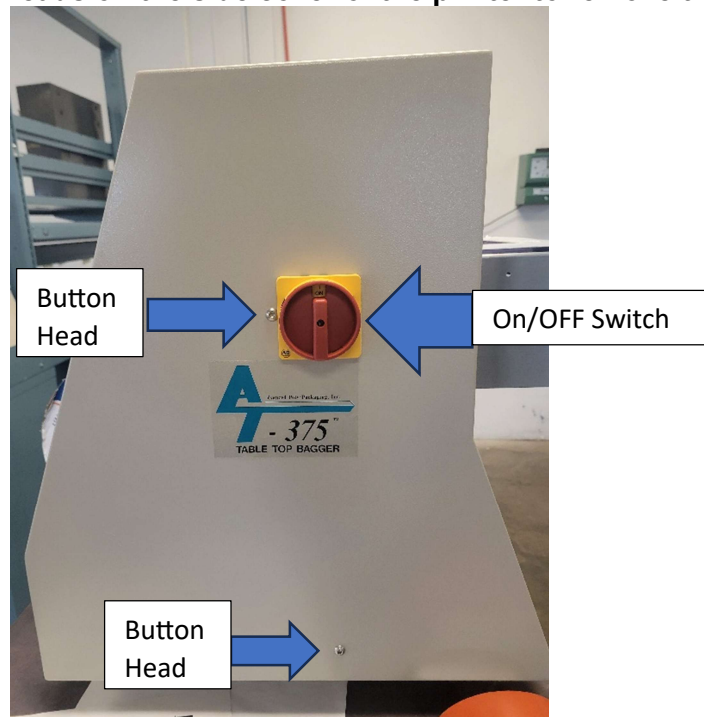

Product(s): T-375

Procedure:

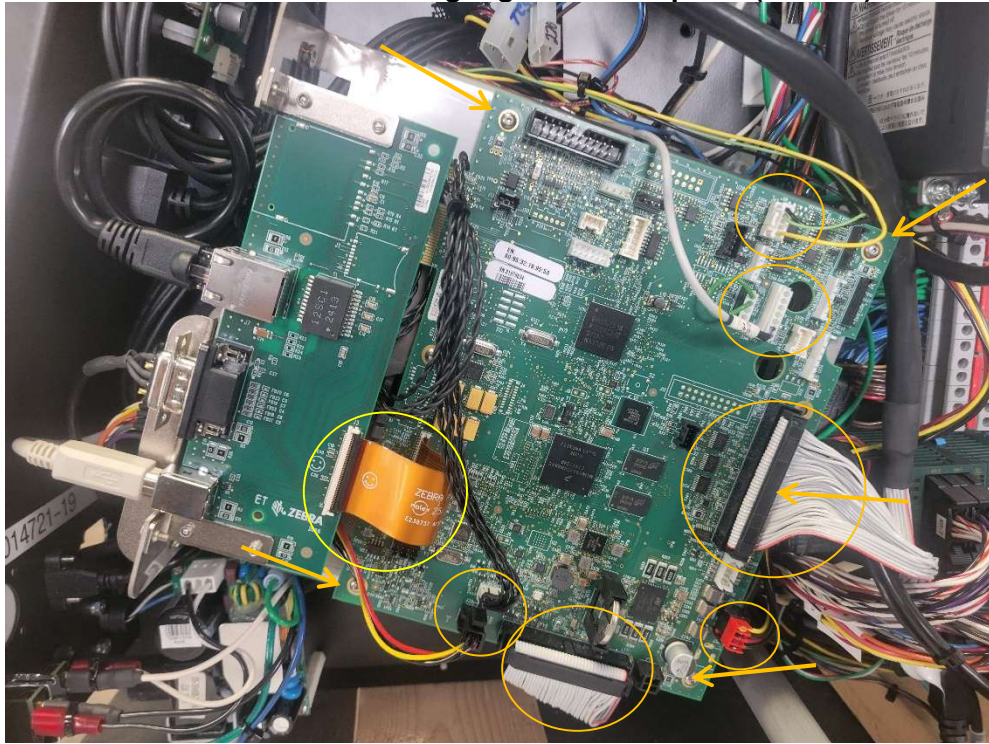

To replace the Logic Board, first start by powering down the entire machine using the On/Off switch

Power Must Be OFF!!!!

Remove the two button heads on the side cover of the printer to remove the Side Cover

**Remove the circled plugs/connectors on the logic board.
Remove Screws holding logic board in place (Arrows)**

Replace the old Logic Board with the new one and reattach the circled plugs/screws.
