Document Title: How To Replace Logic Board

Product(s): TI-1000ZT

Procedure:

To replace the Logic Board, first start by powering down the entire machine using the On/Off switch

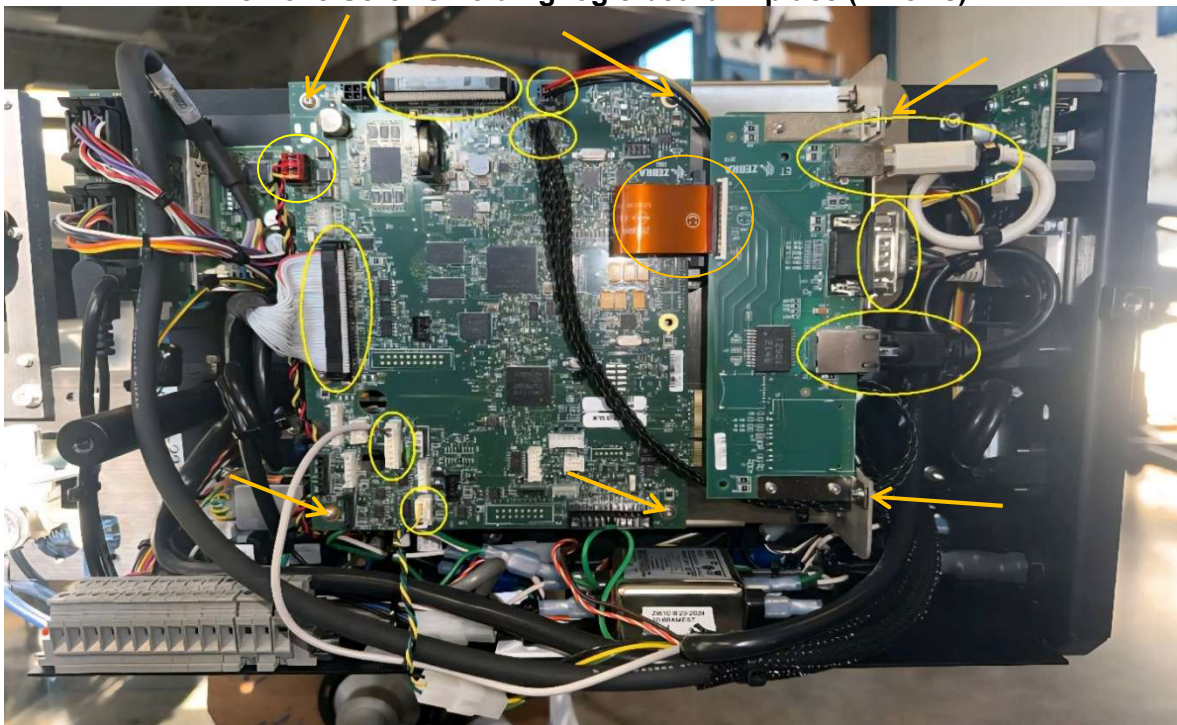

Power Must Be OFF!!!!

Remove the two button heads on the side cover of the printer to remove the Printer Side Cover

**Remove the circled plugs/connectors on the logic board.
Remove Screws holding logic board in place (Arrows)**

Replace the old Logic Board with the new one and reattach the circled plugs/screws.
