APP Product Evaluation Form

Advanced Poly-Packaging, Inc. offers a *free* Product Evaluation of your products. Upon receipt of your product, our problem solvers will determine the feasibility of packaging your product with detailed analysis, including: proposed equipment, required and suggested options, packaging speeds, potential problems and suggested bag sizes. Upon request, we will video-tape your product running through our equipment and return your product packaging for your evaluation. Please complete the following information to get us started!
